The Captain is great for any style of event. With minimal setup, your event will be up and running in no time. The purchase of a clock includes a tripod stand and all cables required for wired operation. The clock can either run standalone, or be completely integrated with Trackwrestling in order to run an electronic event. The tripod stand is adjustable from 44" to 80" high. With variable brightness, you will be able to adjust the clock for a variety of lighting conditions. Many options are available for case design and warranty services. Contact us today for a customized quote or any questions you may have about our products.
